## REPORT

### Sensitization Workshop for NAAC- 19.05.2023

The department of Medical Education organised a **Faculty Workshop for NAAC** at LT-1, from 02:30 PM to 04:00 PM, Himalayan Institute of Medical Sciences, SRHU, Dehradun, on 19th May 2023.

The workshop focused on e-content creation, intern logbook and Slow performer and advanced learners and was attended by 55 faculty from all academic units of the University, though 70 faculty had originally registered for the sensitization program.

Prof Deorari detailed the need of sensitization session and that can help engage students & improve academic. He said that we must bring ourselves abreast with the latest technology.

The workshop commenced with the first speaker Dr Vidisha Vallabh, Assistant Professor, Community Medicine taking the dais. Dr Vallabh introduced all attendees the state of art studio located in the campus. She stepwise detailed the SOPs to be followed for creating a video recording. A handy and useful resource like the studio with an associated technical team will facilitate faculty/staff members and students of the University to share their knowledge, expertise & skills while maintain quality control & quality assurance processes of the product.

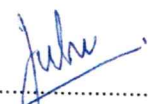

The next session was conducted by Prof Y.S. Bisht, Dermatology, who practically approached Intern LogBook with a live demo and hands-on with the attendees. Prof Bisht pointed out the general errors while assessing the logbook and students and did active troubleshooting with the attendees. Prof Bisht emphasised on the importance of weekly/ monthly chalking out tasks for interns for a smooth and trouble-free bedside learning. Prof Bisht proposed timely filling and assessment of the logbook for an accurate grading of the interns.

After a generous Question & Answer round with Dr Bisht, The workshop was conducted by Prof Deepa Singh, Department of Anatomy who explained the need of Slow Performer and Advanced learner program in an educational institute. She proposed that both slow performers and advanced learners needed support and different methods of teaching-learning to engage them.

The session ended with a vote of thanks from Prof Juhi Kalra.

Date: 20.05.2023
