Dear Sir,

World Prematurity Day is an opportunity to advocate for essential care for women and newborn care for every baby everywhere and to highlight the benefits of methods that save lives such as immediate skin-to-skin contact and Kangaroo Mother Care (KMC). This year the world celebrated World Prematurity Day, under the theme "**Small Acts, BIG IMPACT: Immediate Skin-to-Skin Care for Every Baby, Everywhere**". Department of Neonatology, Himalayan Institute of Medical Sciences, celebrated World Prematurity Day on 17th November 2023 by active involvement of all residents, staff nurses and parents of babies admitted in NICU. On this occasion Dr Brajendra Singh, Post Doctoral Fellow in Neonatology Department, delivered a talk on Kangaroo Mother Care and emphasised the importance of skin-to-skin contact at time of birth for all the NICU nurses.

Attached are a few pictures of the event.

Thanks & Regards

DEPARTMENT OF NEONATOLOGY

Himalayan Institute of Medical Sciences

Swami Rama Himalayan University
