Abstract:

The WHO Uppsala Monitoring Centre, which is the WHO Collaborating Centre supporting the Programme for International Drug Monitoring, holds the MedSafetyWeek each year. This year, the 9 th annual MedSafetyWeek is being held from 4-10 November 2024 with the theme “the importance of using medicines in the right way to prevent side effects, and to report side effects when they do occur”. Commensurate with this, today’s CME is a step towards promoting medication safety by focussing on key areas related to pharmacovigilance, prescription audit and potential drug interactions related to our hospital.

All Faculty & Post Graduate Residents are required to attend the CME.
