

## **Workshop Report**

### **CRISIS CARDIO**

"Crisiscardio" - a simulation based workshop and cme was conducted on 29th September (world heart day) by the dept of emergency medicine at the simulation and skills centre, SrHu. This workshop catered to educating 35 delegates in managing cardiac emergencies by a panel of 12 eminent national faculties in emergency medicine. The workshop and cme was an amalgamation of engaging lectures on various cardiac emergencies followed by immersive hands on simulation based experience in managing cardiac emergencies and performing life saving procedures. The programme ended with a post graduate level EcG based quiz and feedback from all the participants and guest faculty.

4 cme credits from ukmc and certificates were provided to all the participants.
