Notice

Dear Students,

We are pleased to announce that the SRHU ACM Student Chapter is hosting an ACM Distinguished Speaker talk titled:

“Evolution of Large Language Models: The Good, The Bad and The Opportunities” by Prof. Tanmoy Chakraborty.

This session will provide an insightful overview of how Large Language Models (LLMs) have evolved, their benefits, challenges, and the opportunities they present for future AI-driven innovation.

Details are as follows:

- **Title:** Evolution of Large Language Models: The Good, The Bad and The Opportunities
- **Event Date:** 9th September 2025
- **Time:** 12:00 PM – 01:30 PM
- **Speaker Details:** Dr. Tanmoy Chakraborty, Associate Professor, Indian Institute of Technology Delhi (IIT Delhi), India
- **Format:** Live lecture via video conference
- **Audience:** B.Tech 1st Year Students
- **Mode:** Virtual
- **Venue:** Computer Lab 6, School of Science and Technology Swami Rama Himalayan University

For further inquiries and registration, please contact SRHU ACM Student Chapter members:

Event Report: Guest Lecture on Large Language Models (LLMs)

Organized by:	ACM Student Chapter, Swami Rama Himalayan University
Date:	9 th of September, 2025
Venue:	Swami Rama Himalayan University, Jolly Grant, Dehradun (U.K.)
Speaker:	Prof. Tanmoy Chakraborty, Associated Faculty of the Yardi School of Artificial Intelligence, India Institute of Technology Delhi(IIT Delhi), India
Participants:	Approx 70

Introduction

The ACM Student Chapter of Swami Rama Himalayan University organized a Guest Lecture on Large Language Models (LLMs) to provide students with insights into the rapidly evolving field Of Artificial Intelligence. The session aimed to deepen participants' understanding of foundational concepts, architectures, and real-world applications of LLMs such as GPT, BERT, and LLaMA.

Objectives

- To introduce the fundamentals of Large Language Models.
- To explain their applications in Natural Language Processing (NLP) and beyond.
- To discuss ethical challenges and opportunities with LLMs.
- To encourage students to explore research and project opportunities in AI.

Event Details

The session was delivered by Prof. Tanmoy Chakraborty, who shared his expertise on the evolution of language models, transformer architecture, and fine-tuning techniques.

Key highlights of the lecture included:

- Overview of NLP and the rise of LLMs.
- The working of transformer models and attention mechanisms.
- Use cases in text generation, summarization, and conversational AI.
- Limitations and ethical considerations, including bias and data privacy.
- Future directions and career opportunities in AI/ML.

Participation & Engagement

The event witnessed participation from 70+ students and faculty members across different branches. The interactive nature of the session kept the audience engaged, and several students expressed interest in pursuing projects related to LLMs.

Outcomes & Impact

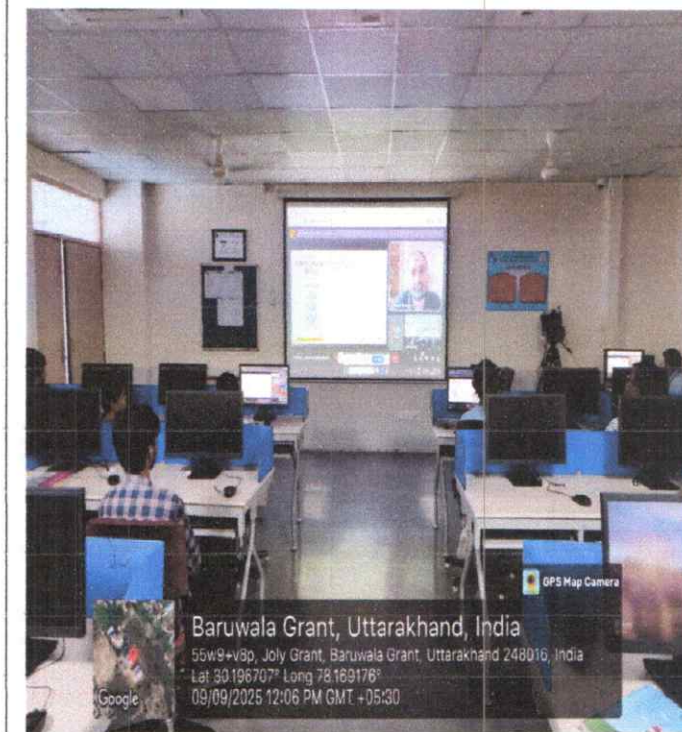

- Students gained clarity on how LLMs function and their role in modern AI applications.- The lecture inspired students to consider research projects, internships, and competitions involving AI/ML.
- Strengthened the academic-industry connection through expert knowledge sharing.

Conclusion

The Guest Lecture on LLMs proved to be highly enriching, equipping students with the latest knowledge in the field of Artificial Intelligence. The ACM Student Chapter looks forward to organizing more such knowledge-sharing sessions to continue fostering a culture of innovation and learning.
