

Basic Course in Medical Education (BCME) Workshop: 09th to 11th April 2025

The **Basic Course in Medical Education (BCME)** was conducted from **April 09 to 11, 2025**, at HIMS, Dehradun, with the participation of 30 faculty members from Himalayan institute of Medical Sciences and various medical colleges affiliated with this Regional Centre participated in the program. The sessions were guided by meticulously prepared materials developed by the Expert Faculty group of the Academic Cell, NMC.

The AETCOM session, brought-up some critical issues related to ethics, professionalism and communication. The role-play enacted by participants helped bring up the relevant messages more effectively. Their enthusiastic involvement enhanced the significance of the sessions, making them more

meaningful and enriching. The discussion of large group teaching, mentoring and small group discussion for effective teaching was followed by discussion of appropriated assessment tools to cultivate a supportive learning environment, to improve student outcomes. The overall, workshop was enlightening, as participants shared their experiences. The session was interactive and result in a valuable exchange of idea. The advancement of teaching and assessment with learning objectives, clearly helped the participants understand the significance of – outcomes with T-1 and assessment for effective delivery of curriculum.
