

SRHU/HSST/Int./2025-077

Dated: 26th March 2025

Notice

Dear Students,

This is to inform you that Himalayan School of Science and Technology is going to organize a **Hands-On Workshop on WordPress** that will be conducted for **B.Tech III Year** Computer Science and Engineering (CSE) students on **27th March 2025 (Wednesday)**.

Objective:

- To provide students with practical experience in creating and managing WordPress websites.
- To introduce students to the core functionalities and tools available in WordPress.
- To improve students' skills in web development, including theme customization, plugin installation, and SEO techniques.
- To help students understand the importance of WordPress in real-world web development and its applications in various industries.

Event Details:

- **Date:** 27th March 2025
- **Venue:** Computer Lab-1, HSST
- **Time:** 02:30 to 04:30 PM

Event Coordinator: Dr. Gaurav Sharma, Ms. Simranjeet Kaur

Report

Report On Hands-On Workshop on WordPress: 2 hours Organized by HSST (SRHU)

Event Overview:

Department:	Computer Science and Engineering
Event Name:	Hands-On Workshop on WordPress
Date:	27 th March 2025
Duration:	2 Hours
Time:	02:30 PM to 04:30 PM
Organized by:	HSST (SRHU)
Number of Participants:	19
Venue:	Computer Lab-1, HSST Building
Coordinator:	Dr. Gaurav Sharma, Ms. Simranjeet Kaur

Objective: The objective is to equip students with hands-on experience in WordPress, covering core functionalities, theme customization, plugins, and SEO, while emphasizing its real-world applications across various industries.

Summary:

A hands-on workshop on WordPress was conducted for B.Tech 3rd-year students on 27th March 2025 (Thursday), from 02:30 to 04:30 PM at Lab 1, focusing on building and managing WordPress websites efficiently. The workshop began with an introduction to Apache, XAMPP, and WordPress, explaining their significance in web development. Apache was introduced as an open-source web server that processes and delivers web pages, while XAMPP was explained as a local server environment containing Apache, MySQL, and PHP, essential for running WordPress locally. The students were guided step-by-step through installing XAMPP from the official website, setting up Apache and MySQL using the XAMPP Control Panel, and creating a database via phpMyAdmin. They then learned how to download, extract, and move WordPress to the htdocs folder in XAMPP and completed the installation via a web browser by setting up the site title, admin credentials, and login details. After successfully setting up WordPress, students explored its core functionalities, including themes, plugins, menus, and widgets. By the end of the workshop, students had a solid foundation in setting up and using WordPress locally, gaining hands-on expertise in configuring and managing websites, a crucial skill for modern web development.
