

## The Curriculum Implementation Support Program (CISP III) Workshop: 07<sup>th</sup> to 08<sup>th</sup> March 2025

The **Curriculum Implementation Support Program (CISP)** in Medical Education and Training (MET) was held from **March 07 to 08, 2025**, at HIMS in Dehradun. A total of 30 faculty members from Himalayan institute of Medical Sciences and various medical colleges affiliated with this Regional Centre participated in the program. The workshop focused in various aspects of sessions that fostered energetic discussions aimed at successfully implementing the new curriculum that the faculty must be familiar with CBME for proper implementation of the small group discussion and interaction that addressed several queries. The changes in graduates' medical education regulations were discussed. the workshop emphasizes on the need to address attitude and communication through AETCOM modules, designed to enhance, communication skills in a supportive learning environment. Dynamic group activities

fostered a collaborative atmosphere, encouraging participants to share their thoughts and insights freely. A visit to the simulation lab was highly appreciated where most participants expressed the need for more elaborate training on simulation. The integrated teaching session where there was making of the time-table brought up many avenues of inter-disciplinary teaching.
