

REPORT ON of Prof. Sahid Ansari Visiting Professor SPS

Date : 15th November 2025

Guest Speaker : **Prof. Shahid Ansari**
(Visiting Professor, School of Pharmaceutical Sciences;
Former Vice Chancellor, Jamia Hamdard, New Delhi,
Former Professor and Dean School of pharmaceutical and
Research, Jamia Hamdard, New delhi)

Convenor : Prof. (Dr.) Preeti Kothiyal

No. of Attendees :-

Session I: 105 Students

Session II: 12 Faculty Members

Session III: One on One interaction with each faculty

Session I: (10:30AM-12:30PM)

The School of Pharmaceutical Sciences, an academic constituent unit of Swami Rama Himalayan University, organized an enriching daylong session with Prof. Shahid Ansari on 15th November 2025. The program was designed to provide students and faculty with expert insights into career planning, professional development, and research opportunities in the field of pharmaceutical sciences. The event commenced with a warm welcome and felicitation of the esteemed speaker, followed by an address by the Dean, Prof. (Dr.) Preeti Kothiyal, who emphasized the value of academic engagement with distinguished national leaders in pharmacy education and research. Prof. Ansari delivered an illuminating lecture on “**Career Paths and Opportunities in Pharmaceutical Sciences.**” He elaborated on the wide-ranging and evolving roles available to pharmacy graduates across the pharmaceutical industry, academic institutions, regulatory bodies, research organizations, hospitals, and government sectors also with the essential attributes required by the pharmacy graduate for each role. He highlighted the importance of higher education, continuous skill development, interdisciplinary learning, and attaining globally recognized professional certifications. Students were also oriented about various scholarship schemes, competitive examinations, and effective strategies for building a strong professional profile. An interactive session followed, allowing students to seek guidance on career planning, emerging industry trends, and international opportunities in pharmaceutical sciences.

Session II :(2:30PM-3:45Pm)

The subsequent session was focussed for faculty members, Prof. Ansari spoke on “**Extramural Projects – How and Where to Apply.**” He provided a comprehensive overview of national and international funding agencies, key elements of successful proposal writing, evaluation parameters, and the role of collaborations in strengthening research outcomes. Faculty participants discussed potential project ideas and received valuable recommendations for improving research productivity and enhancing institutional research culture. Prof Ansari guided each faculty on the potential area/topic on which they can draft project for extramural fundings. He gave topics to each faculty on which they will be drafting a project for specific funding agencies viz.

Prof. (Dr.) Preeti Kothiyal

Swami Rama Himalayan University

Dr. Pooja Nautiyal
(Associate Professor)

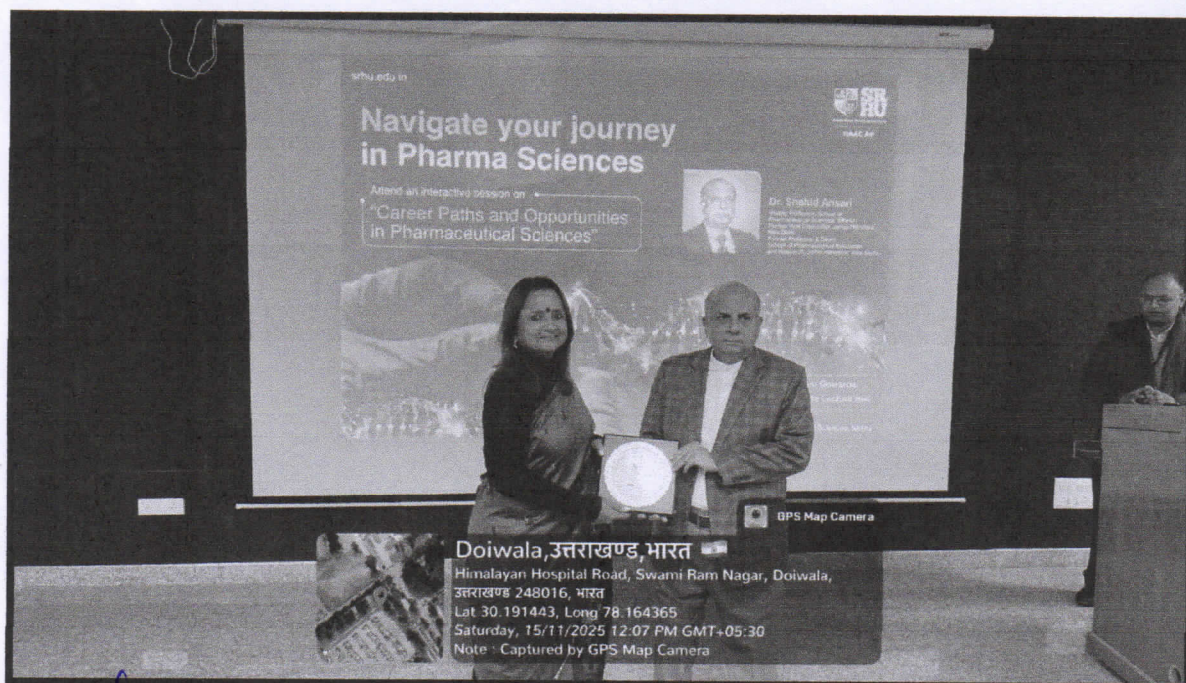

- Bioassay Guided fractionation and Inhibition of proinflammatory cytokines for asthmatic potential from Medicinal Plant.
- Synthesis and evaluation of novel manic basis as anticholinesterase inhibitors.
- Development and evaluation of plant extract loaded nano emulsion for anti-diabetic activity and diabetic foot ulcer management.
- Development and evaluation of ethosomal gel for treatment of Rheumatoid Arthritis.
- Phytochemical and pharmacological in vivo and in vitro activity of some medicinal plants.

All faculties were directed to submit the proposal for discussion, refinement and finalization during Prof Ansari's next visit in February 2nd week 2026. He asked all to mandatorily publish their PG dissertation work (01 review and 1-2 research articles) as well as Ph.D. work (2 Review and 2-3 research articles). He also shared his mobile number with all faculty members for any queries and further discussion, if required.

Session III: (3:45PM-5:30PM)

A dedicated one-on-one interaction session was also conducted, during which faculty members discussed their ongoing and proposed research activities with Prof. Ansari. His tailored guidance on research planning, publication strategies, and avenues for collaborative work was highly appreciated.

The Guest Lecture by Prof. Shahid H. Ansari proved immensely beneficial for both students and faculty of the School of Pharmaceutical Sciences. His expertise and thoughtful guidance added significant value to the academic ecosystem. The school extends its sincere gratitude to Prof. Ansari for his valuable contribution. The programme concluded successfully with highly positive feedback from all participants.
