Report of Faculty Guest Lecture on “Breast Oncoplastic Surgeries” held on 29th May 2026 organized by Department of General Surgery

Venue: Department of General Surgery, HIMS, SRHU

Participants: 17 (4 Faculties and 13 Students)

Detailed Report of the Event

The Department of General Surgery organized a Guest Lecture on **29 May 2026** by **Dr. Chaitanyanand B. Koppiker**, Medical Director, Orchids Breast Health Center, Pune, and Founder, Prashanti Cancer Care Mission, Pune.

The topic of the lecture was **“Breast Oncoplastic and Breast Conserving Surgeries”**. The session was attended by faculty members, postgraduate residents, and undergraduate students of the department.

During the lecture, Dr. Koppiker discussed the latest advances in the surgical management of breast cancer, with special emphasis on breast-conserving surgery and oncoplastic techniques. He highlighted the importance of achieving optimal oncological outcomes while preserving breast aesthetics and improving the quality of life of patients. Various surgical approaches, patient selection criteria, reconstructive options, and case-based experiences were presented to provide practical insights into contemporary breast cancer surgery.

The lecture was highly informative and interactive. Participants actively engaged in discussions and gained valuable knowledge regarding modern concepts and innovations in breast surgery. The session significantly contributed to the academic development of students and residents and promoted awareness of patient-centered surgical care.

The Department of General Surgery expresses its sincere gratitude to Dr. Chaitanyanand B. Koppiker for sharing his expertise and enriching the academic environment of the institution.

Outcome of the Activity:

- Enhanced understanding of Breast Conserving Surgery and Oncoplastic Breast Surgery.
- Exposure to contemporary surgical techniques in breast cancer management.
- Improved academic and clinical knowledge among faculty members and trainees.
