REPORT OF WORKSHOP ON FACILITY BASED NEWBORN CARE (FBNC)

The Child Health Nursing Department of Himalayan College of Nursing organized a workshop on “Facility-Based Newborn Care” on February 19, 2026 at Mother Teresa Auditorium, HCN, SRHU.

Objective: The objective of the workshop was to enhance the skills of participants regarding newborn care in different scenarios.

A total of 138 students from the B.Sc. Nursing 6th Semester were participated the workshop. The training was conducted through four hands-on interactive workstations such as -

Workstation 1 – Thermoregulation: Hypothermia and Kangaroo Mother Care (KMC)

Workstation 2 – Hand Washing and PPE (Donning and Doffing)

Workstation 3 – Feeding Methods

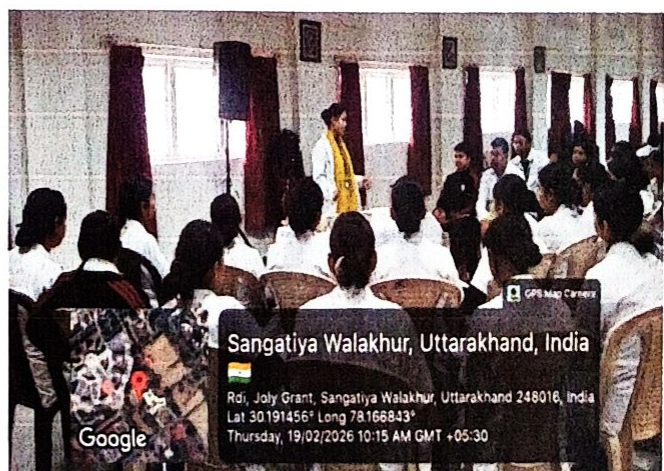

Workstation 4 – NRP

Workstation 5 – Care of Baby under Phototherapy

Post workstation demonstration, participants engaged in scenario-based skill assessments, where they performed essential newborn care in simulated conditions. Further the students showcased role plays on Kangaroo Mother Care (KMC), newborn resuscitation, and different feeding methods, demonstrating their successful learning with great enthusiasm and precision. The workshop concluded with a post-test, feedback session, and vote of thanks. The event's success was made possible through the efforts of Dr. Sanjenbam Emon Chanu, Dr. Rajkumari Sylvia Devi, Dr. Vandana Chauhan, Mrs. Namrata Pundir, Mrs. Varsha Rawat and
