Report on Workshop on Job Placement Opportunities in Germany on 30th January 2026

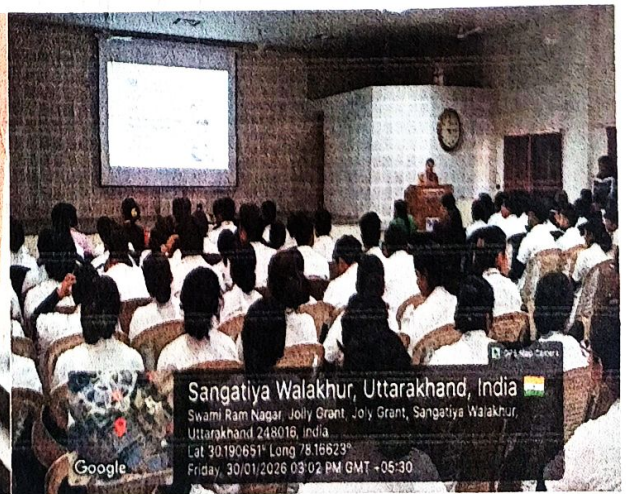

Venue: Mother Teresa Auditorium, Himalayan College of Nursing, SRHU

Participants: 160 students and 15 Faculties

A workshop on “Health Care Based Nursing Placement Opportunities in Germany” was successfully conducted at Mother Teresa Auditorium, Himalayan College of Nursing, Swami Rama Himalayan University. The workshop was organised by Himalayan College of Nursing, SRHU, in association with Learnet Skills. The workshop aimed to create awareness among final year nursing students about global career opportunities, with a special focus on employment prospects in Germany. The session commenced with a warm welcome address by the workshop coordinator, Dr. S. Emon Chanu, under the esteemed leadership and guidance of Dr. Sanchita Pugazhendi, Principal, Himalayan College of Nursing and Dr. Mukesh Bijalwan, OSD to Hon’ble Vice Chancellor, SRHU. The workshop began with an overview of global nursing career opportunities, delivered by Dr. Bijalwan, emphasizing the growing demand for qualified nurses across various countries. Mr. Umashankar, Overseas Training and Placement Coordinator Uttarakhand, shared his experience and the importance of international exposure and global workforce mobility for nursing professionals. Ms. Navya Goel, Co-founder of Kareer Coach, elaborated on the growing demand for nurses in Germany, outlining the healthcare system, job roles, salary structure, and long-term career prospects. She also highlighted the benefits of working in Germany, including job security, attractive remuneration, social security, work-life balance, and a high standard of living. Special focus was given to Germany, where there is a significant shortage of nursing professionals, creating excellent employment opportunities for Indian nurses.

The session further covered German language requirements, along with the training pathway, hospital placement, licensing procedures, and visa support available for aspiring candidates. Success stories of Indian nurses working in Germany were shared, offering practical insights into migration and professional adaptation.

The workshop concluded with an interactive question and answer session along with the team of Learnnet skills, addressing student queries on eligibility, language training, and placement processes. Personalised pamphlets were distributed, and feedback from the participants were taken. Overall, the workshop proved highly informative and motivating for the nursing students.
