## CLEAN WATER & SANITATION CLUB (SDG Champions Club)

### 1. Introduction

The Clean Water & Sanitation Club at SRHU fosters awareness, innovation, and action around sustainable water use and hygiene. Aligned with SDG 6, the club engages students in rainwater harvesting, wastewater recycling, and sanitation advocacy — reflecting SRHU's commitment to environmental stewardship and community well-being. It serves as a platform for experiential learning, outreach, and campus-based water conservation.

### 2. Objectives

The objectives of the Club are:

- **Promote water conservation and hygiene awareness** through student-led campaigns and workshops.
- **Support SRHU's sustainable water infrastructure** by engaging students in rainwater harvesting, greywater reuse, and sanitation audits.
- **Facilitate community outreach and training** on clean water access and sanitation practices in nearby villages.

### 3. Club Committee

The Club shall be governed by a committee comprising the following members:

Composition	Roles
Dr. Vikash Singh Jadon, Associate Professor, HSBS	Chairperson
Dr. Arvind Farswan, Assistant Professor, HSPS	Treasurer
Dr. Geeta Bhandari, Assistant Professor, HSBS	Member Secretary
Pramada Chandola, B.Sc. Microbiology, HSBS	Member, Student coordinator

## REPORT

**Organized by** : Clean water and Sanitation Club, Swami Rama Himalayan University  
**Date** : 15<sup>th</sup>-16<sup>th</sup> July 2024  
**Venue** : Himalayan School of Biosciences  
**Time** : 09:30AM onwards

The Clean Water and Sanitation Club, Swami Rama Himalayan University (SRHU), successfully organized a two-day Training Programmed on “Change Management Role & Activities for Har Ghar Jal” on 15th and 16th July 2024 in collaboration with the Department of Drinking Water & Sanitation, Ministry of Jal Shakti (MoJS) and the State Water and Sanitation Mission (SWSM), Government of Uttarakhand. The programme, aligned with Sustainable Development Goal 6 (SDG 6) — “*Ensure availability and sustainable management of water and sanitation for all*” aimed to enhance the capacity of engineers and mid-level government officials in effectively implementing the Jal Jeevan Mission (JJM). A total of 35 participants from Dehradun and Haridwar districts attended the training, which focused on strengthening the technical, managerial, and community engagement skills essential for achieving safe and sustainable water supply systems.

The sessions covered key areas such as the role of public health engineers in JJM, institutional mechanisms, stakeholder engagement, and change management in the water sector. Participants also received practical training on water quality monitoring and surveillance, contamination control, and the use of field testing kits. Emphasis was placed on water treatment and disinfection technologies, especially chlorination, along with participatory approaches for operation and maintenance (O&M).

Further sessions addressed social and behavioural change communication (SBCC) strategies, participatory rural appraisal (PRA) tools, and community-based approaches for improving water and sanitation systems. The participants explored concepts of greywater management, the net-zero water framework, and both conventional and advanced treatment technologies, including nature-based solutions for sustainable water use.

The training concluded with group presentations and a certificate distribution ceremony, where participants shared their learnings and actionable insights to strengthen water management practices in their respective regions.
