## CREATIVE CLUB (Academic & Professional Development Clubs)

### 1. Introduction

The Creative Club is a vibrant, student-driven playground for creativity, laughter, and joyful experimentation. Anchored within the Himalayan School of Science & Technology, it welcomes all curious minds who love to explore ideas through unconventional formats, spontaneous invention, and team-based fun. No formalities, no boundaries—just energy, expression, and inventiveness in action.

Whether it's a reverse talent show, comic-making on physics concepts, or spaghetti bridge races, this club lives at the intersection of curiosity and pure enjoyment.

### 2. Objectives

The objectives of the Club are:

- Cultivate a culture of free, expressive, and fun-based thinking across the campus
- Create inclusive spaces where students play with ideas through art, tech, games, and storytelling
- Break down academic silos through cross-disciplinary creative challenges
- Offer a platform for spontaneous teamwork, humor-infused creativity, and passion-led innovation

### 3. Club Committee

The Club shall be governed by a committee comprising the following members:

| Composition                                            | Roles              |

## REPORT

**Organized by** : Creative Club, Swami Rama Himalayan University  
**Date** : 04<sup>th</sup> October 2024  
**Venue** : HSST Auditorium & Computer Lab 6  
**Time** : 10:00Am –12:30 PM

The Creative Club, Swami Rama Himalayan University organized an engaging event titled “Tech Vision” on 4<sup>th</sup> October 2024 at the HSST Auditorium and Computer Lab–6. The event aimed to promote technical innovation and creative expression among students while celebrating the spirit of innovation and digital creativity.

The inauguration ceremony was graced by the Principal, Dr. Pramod Kumar, along with Prof. Harvinder Malhotra and other esteemed faculty members of HSST. Their presence and encouraging words set a motivating tone for the day, inspiring participants to explore and exhibit their technical and artistic potential.

The event comprised two key activities designed to engage students in both technical problem-solving and creative design. The first activity, “Ingenious Mind,” encouraged participants to tackle real-world challenges through innovative solutions, highlighting their technical skills, analytical thinking, and creativity. Students demonstrated exceptional ingenuity in applying their academic knowledge to practical scenarios, promoting the essence of innovation in engineering education.

The second activity, “Canvas of Creativity,” provided participants with a platform to express their artistic abilities using Canva, a digital design tool. Through this competition, students created visually appealing and meaningful designs, showcasing the seamless blend of technology and creativity. The activity not only enhanced digital literacy but also encouraged students to view design as an integral part of communication in technology-driven environments.

The winners and runners-up of both competitions were awarded certificates and mementos in recognition of their outstanding performance. Additionally, the volunteers who contributed to the smooth organization of the event were also acknowledged with certificates of appreciation for their dedication and teamwork. The Tech Vision Event proved to be a resounding success, serving as an excellent platform for students to display their innovative thinking, digital creativity, and collaborative spirit. The enthusiastic participation of students, coupled with the encouragement of faculty members, made the event both inspiring and memorable. This initiative not only celebrated the IEEE Day but also reinforced the importance of blending creativity with technology to foster holistic learning and innovation among students of HSST.

## REPORT

**Organized by** : Creative Club, Swami Rama Himalayan University  
**Date** : 28<sup>th</sup> September 2024  
**Venue** : HSST Auditorium & Computer Lab 6  
**Time** : 10:00Am –12:30 PM

The Creative Club, Swami Rama Himalayan in collaboration with the Himalayan School of Science and Technology (HSST), was conducted from 28th September 2024 to 22nd February 2025 at Lab-06, HSST. The intensive and skill-based program aimed to strengthen the technical proficiency of students by providing hands-on experience in modern web development and emerging technologies.

The primary objective of the boot camp was to equip students with practical, industry-relevant skills in full-stack web development, covering both frontend and backend technologies. It sought to prepare participants for professional roles in the tech industry by enhancing their understanding of software development tools, coding standards, and deployment practices.

The boot camp followed a structured 13-week schedule, systematically introducing students to key technologies and development practices. The program began with foundational training on Linux basics, Git, and VS Code setup, enabling participants to establish and manage their development environments efficiently. Subsequent sessions on HTML and CSS focused on creating static and responsive landing pages, laying the groundwork for front-end design. The JavaScript module introduced interactivity and dynamic functionalities in web applications, followed by Node.js, which exposed students to server-side development concepts and API creation.

In the later stages, participants learned React.js for building modular, component-driven applications and Next.js for full-stack development, allowing them to design production-ready web solutions. The boot camp concluded with a forward-looking segment on emerging technologies, offering insights into current trends, best practices, and evolving tools in the tech landscape.

Throughout the program, students engaged in hands-on coding sessions, peer reviews, and project-based learning, which fostered collaboration and practical problem-solving. By the completion of the boot camp, participants had gained the ability to independently build and deploy fully functional web applications. This experience significantly enhanced their technical portfolios, strengthened teamwork skills, and improved their career readiness.

The initiative proved highly successful in bridging the gap between academic learning and industry expectations. Students appreciated the opportunity to gain real-world experience in coding and application development, while faculty members recognized the program's role in promoting self-directed learning and innovation. The Bootcamp: Technology and Development thus served as an important milestone in nurturing technically competent, creative, and industry-prepared graduates of HSST.
