## INVENTIVE MINDS SOCIETY (Academic & Professional Development Clubs)

### 1. Introduction

The Inventive Minds Society is a university-level initiative managed by SRHU's Intellectual Property Cell (IPMC), aimed at cultivating a culture of innovation, creativity, and intellectual property awareness. It serves as a bridge between academic research and IP protection, helping students, faculty, and researchers understand the value of their creative outputs and navigate the processes of documentation, filing, and collaboration. The society supports SRHU's vision of becoming a hub for ethical innovation and knowledge commercialization.

### 2. Objectives

The objectives of the Club are:

- Promote awareness of Intellectual Property Rights (IPR) among students, faculty, and researchers
- Assist in identifying, documenting, and protecting creative and innovative outputs across disciplines
- Facilitate interdisciplinary collaboration for idea generation, patentable research, and technology transfer
- Support capacity-building through workshops, mentorship, and exposure to national IP frameworks

### 3. Club Committee

The Club shall be governed by a committee comprising the following members:

Composition	Roles
Dr. Amjad Husain, Director, HCIE	Chairperson
Ms. Neelam Danu, Asst. Professor, HSST	Treasurer
Mr. Rahul Pandey, Asst. Professor, HSPS	Member Secretary

## REPORT

**Organized by** : Innovative Mind Society, Swami Rama Himalayan University  
**Date** : 03<sup>rd</sup> August 2024  
**Venue** : Idea Innovation Lounge  
**Time** : 02:30PM –04:00 PM

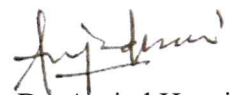

The Inventive Mind Society, Swami Rama Himalayan University successfully conducted an Idea to Startup Workshop on 3<sup>rd</sup> August 2024 at the Ideation Lounge, HCIE, for the first-year *B.Sc. students of the Himalayan School of Yoga Sciences*. The workshop aimed to introduce participants to the fundamentals of innovation, ideation, and entrepreneurship, particularly focusing on how creative ideas in the field of yoga and wellness can evolve into impactful ventures.

The session was led by Dr. Amjad Husain, *Director, HCIE*, who inspired students by explaining how even the simplest ideas, when nurtured with innovation and dedication, can lead to meaningful entrepreneurial outcomes. Through real-life startup stories, case studies, and practical insights, Dr. Husain illustrated the process of transforming ideas into viable business models. He encouraged students to think critically, identify community needs, and develop sustainable solutions that integrate traditional wellness practices with modern entrepreneurial approaches.

Participants were also introduced to the resources, mentorship, and incubation support available at HCIE, helping them understand the ecosystem that enables aspiring entrepreneurs to take their ideas from concept to reality. The interactive nature of the workshop provided students with an opportunity to brainstorm, exchange ideas, and refine their understanding of the entrepreneurial process.

The workshop concluded with a lively Q&A session, where students shared their own ideas, sought feedback, and discussed potential ventures combining yoga, health, and technology. The discussions reflected a growing interest among participants in exploring entrepreneurship as a career path and in creating startups that promote wellness and mindfulness.

The session proved to be highly motivating and insightful, leaving participants with a renewed sense of creativity and confidence. It not only helped them recognize the entrepreneurial opportunities within the yoga and wellness sector but also inspired them to take the first step toward transforming their visions into sustainable business ventures.

## REPORT

**Organized by** : Innovative Mind Society, Swami Rama Himalayan University  
**Date** : 25<sup>th</sup> November 2024  
**Venue** : Idea Innovation Lounge  
**Time** : 11:00AM –01:00 PM

The Inventive Mind Society, Swami Rama Himalayan University successfully organized an Interdisciplinary Innovation Bootcamp on 25<sup>th</sup> November 2024 at the Ideation Lounge, HCIE, Swami Rama Himalayan University. The full-day program was designed to inspire creativity, problem-solving, and entrepreneurial thinking among students across various disciplines, encouraging collaboration and innovation through experiential learning.

The bootcamp began with an inspiring entrepreneurial lecture by Dr. Amjad Husain, *Director, HCIE*, who emphasized the importance of interdisciplinary collaboration in driving impactful innovation. He shared practical insights on how diverse academic backgrounds and skill sets can converge to create sustainable startup solutions. Dr. Husain's talk set the tone for the day, motivating students to approach entrepreneurship with curiosity, adaptability, and a problem-solving mindset.

The participants were divided into teams and engaged in hands-on workshops focused on ideation, business planning, and pitching. Teams brainstormed innovative startup ideas addressing real-world challenges and developed detailed business models, covering aspects such as market analysis, customer needs, value proposition, financial feasibility, and growth strategy. Mentorship sessions guided the teams through structured frameworks for turning abstract ideas into actionable plans, while interactive discussions encouraged participants to think strategically about innovation in healthcare, technology, sustainability, and education.

The day concluded with a pitch presentation segment, where teams showcased their ideas before a panel of mentors and peers. The pitching activity provided students with a platform to refine their communication, analytical, and presentation skills while receiving constructive feedback from experts. The bootcamp not only enhanced their understanding of startup dynamics but also strengthened teamwork and leadership abilities.

By the end of the program, participants had gained valuable exposure to the innovation and entrepreneurship ecosystem at HCIE, including access to resources, mentorship, and incubation support available to student innovators. The bootcamp proved instrumental in helping students transform theoretical knowledge into practical innovation-driven projects.

The Interdisciplinary Innovation Bootcamp served as a dynamic platform that blended learning, creativity, and collaboration. It provided a strong foundation for aspiring entrepreneurs to explore opportunities beyond their core disciplines and to view entrepreneurship as a viable and fulfilling career path. The positive energy, engagement, and enthusiasm of the participants reflected the success of the event in cultivating an entrepreneurial mindset within the SRHU student community.
