The Community Medicine Department, successfully organized a comprehensive World AIDS Day observance on December 2, 2024. The event was designed to raise awareness about HIV/AIDS, promote prevention, and reduce stigma associated with the disease. Activities conducted were Health education sessions, Poster Making Competition, Presentation by MSc Epidemiology Students.

The World AIDS Day observance proved to be a resounding success, achieving the following objectives:

- **Increased Awareness:** The events significantly raised awareness about HIV/AIDS among healthcare providers, students, and the general public.
- **Empowerment:** Participants were empowered to make informed decisions about their sexual health and to seek necessary healthcare services.
- **Stigma Reduction:** The activities helped to dispel myths and misconceptions about HIV/AIDS, promoting empathy and understanding.
