### Activity Detail

A school health camp was organized at Eklavya Model Residential School under the NSIL project, providing a comprehensive range of healthcare services. The camp included general health check-ups and screenings for the 4Ds (Defects at Birth, Deficiencies, Diseases, and Developmental Delays, including disabilities). Children received appropriate treatment for various health concerns such as cough, cold, allergies, body pain, headaches, fungal infections, eye and ear pain, and dental issues. Additionally, group and individual counseling sessions were conducted to educate students on nutrition, personal hygiene, and menstrual hygiene, promoting overall health and well-being.
