Activity Detail

Under our School Health Program a school health camp was successfully conducted by a multidisciplinary medical team, comprising a doctor, pharmacist, nurse, counsellor, field supervisor and students. The camp offered a wide range of services, including general health examinations, growth monitoring, and screenings for defects, deficiencies, diseases, and developmental delays/disabilities. Necessary treatment was provided to the children, while group and individual counselling sessions focused on essential health topics such as nutrition, hand hygiene, and overall wellness.
