Activity Detail – A maternal health camp was organized which was attended by pregnant and lactating women, including adolescents and children. A medical team consisting of a doctor, pharmacist, nurse, counsellor, and field supervisor conducted the camp. The camp provided a comprehensive range of services, such as general examination, risk assessment, and primary investigation, including Blood Pressure, sugar, and haemoglobin. Antenatal and Postnatal women were provided with prophylactic treatment for anaemia and micronutrients. During this camp, counselling of both groups and individuals was also done on nutrition, family planning, self-care during pregnancy, institutional delivery, breastfeeding, hygiene, post-delivery care, etc.
