  - Dr. Ashwani Bhatt (Neurology)
  - Dr. Neerul Pandita (Pediatrics)
  - Dr. Priya Ranjan Avinashi (Psychiatric)
- **Students:** 3
- **Staff:** 1

### Activity Details:

The program focuses on children who struggle with learning in areas such as reading, speaking, calculation, and written expression. Children identified with learning disabilities may find it difficult to develop new skills or struggle with tasks such as connecting letters with sounds or recognizing basic words. The clinic, set up in the village of Prem Nagar, Doiwala (Keshavpuri Basti, Block Doiwala), offers diagnostic and treatment services to children. Children are identified for the program based on their difficulties in learning these basic concepts, which are often recognized by parents, teachers, or field supervisors. Every Monday, from 9.30 am to 1:30 pm, the medical team—including doctors, counselors, and field supervisors—provides consultations, counseling, diagnostic investigations, and referral services. The learning disability clinic aims to help children with various learning challenges by identifying issues early and offering professional support to improve their education and well-being.
