Activity Detail:

A school health camp was conducted by a medical team consisting of a doctor, pharmacist, nurse, counsellor, field supervisor and students. The camp provided a comprehensive range of services, such as general examination, growth monitoring and screening of 4Ds (Defects at birth, Deficiencies, Diseases, Development delays including disability). The children were provided with the necessary treatment. During this camp, counselling and health education session of both groups and individuals was also done on nutrition, hand washing practices, hygiene, etc.
