**Activity Detail** – On 20-11-24, the Rural Development Institute HIHT - NSIL held a general camp near the Temple area in Kachta, Kalsi, Dehradun, situated in the upper Himalayan region. This initiative is vital due to the region's diverse population and limited access to healthcare services. Many local residents, especially those from underserved communities, face difficulties in accessing regular healthcare, leading to untreated conditions and a diminished quality of life.

A total of 76 individuals benefited from routine health check-ups and received necessary medications. These efforts not only meet immediate healthcare needs but also play a key role in enhancing the overall well-being of the community in the long run.
