Activity Detail – The Learning Disability Clinic at Himalayan Hospital, conducted every Monday from 9.30 AM to 1:30 PM, offers a comprehensive service to children in Khader Shyampur, Block Doiwala, who are struggling with learning difficulties. This clinic is run by doctors, counselors, and field supervisors who provide consultation, counseling, investigation, and referral services. The clinic aims to diagnose and treat children who have trouble learning new skills, such as connecting letters to sounds, recognizing basic words when reading, or understanding fundamental concepts like numbers, colors, and shapes. These children are typically identified by their parents, teachers, or field supervisors based on signs such as slower learning rates and confusion with basic learning tasks. The clinic offers an essential platform for diagnosing and supporting children with learning disabilities, aiming to improve their academic performance and overall development.
