**CC:** ICMR-ePMS

Dear Dr Neeraj Gupta,

In reference to the Indian Council of Medical Research's Call for Investigator-Initiated Research Proposals for Small Extramural Grants (IIRP-SG) under the extramural program , please take note of the proposal titled "**To develop a population based, noninvasive, early detection cancer screening male urinal prototype by quantitation of native nucleic acids in urine using UV spectroscopy.**" with proposal id IIRPSG-2024-01-00227 submitted on the ICMR e-PMS portal.

We regret to inform you that your project was not recommended for funding.

We greatly appreciate your efforts towards developing the proposal. We acknowledge that it is disappointing if a project does not get selected. The number of applications received every year for funding far exceeds the number of projects that can be funded from the available annual budget of ICMR. This leads to difficult decisions of prioritizing a limited number of projects for every call in Extramural Research Program.

We hope you will apply in the upcoming calls for the ICMR Extramural Research Program. The details will be posted on the ICMR ePMS portal as they become available (<https://epms.icmr.org.in/>)

**Important Note:** This is an automated email. Kindly refrain from replying to this email.

Warm Regards  
Program Officer
